## **Business Performance Testimonials**

### **Testimonial from Roman Murr, MD, MBA Croatia, EUROPE February 6, 1997**

"It works, it works, it works!!! With great enthusiasm I'm glad to inform you that for the first time, after lots of half successful mental training, I have achieved concrete results. HPP tapes, together with the OASIS and DAVID Paradise programs 25, 13 & 14, doubtlessly produced fast and profound changes of behavior, feelings and emotions. More results were better performance and improvements in stress management, time organization and other business and overall achievements.

Results have been fast, profound and very concrete. Even results achieved with other professional psychotherapeutic techniques became more obvious. It seems that one big puzzle of better mental performance finally has got desirable shape. Now I'm very eager to continue development, as well as education and consultations with my employees and patients."

### **Testimonial from John Bretthauer August 27, 1996**

"My name is John Bretthauer and I am a commodities broker. In the commodities business, once the skills of playing the "game" are in place, the rest of the challenge in succeeding requires the ability to determine how the market will be performing in the future. Commodity trading is based on emotions. Sensing the state of mind of other brokers and market pressures is 90% of the battle. I thought I had this advantage because I meditated as an attempt to stay calm. As a result I averaged gains of 10% per month.

I purchased a DAVID Paradise XL in the spring of 1996 because my meditation was not helping me stay calm as I would have liked. I use the Paradise XL to help me stay calm while others are in states of panic. In other words, their fear-based trading creates trading opportunities for me!

The Paradise XL has helped me increase my gains from 10% a month to 50% a month. Just recently, I made gains of 100% in one month as a result of the insights brought forward from the creative insights that the Paradise XL has provided. I wear the headphones and the auditory beats help me stay relaxed while I do my trading on the computer. At noon, after trading has ended for the day, I run a 45 minute Delta session and think up insights regarding the market. This is when some of my very best ideas have spawned.

I hope that others in the game do not latch onto this technique as I benefit from their fears, thus making my gains."
